Attendees: Carl Burns, Marian Cerney, Patti Fleck, Katie Jackson, Tiffany Kroeze, Christy Laughlin, Renee Parks, Barb Prewett and Kristi Schulte

“Fitness to Return” Policy

- Gathering information about putting a policy in place for students who have been involuntarily hospitalized for psychiatric reasons to receive a screening before returning to campus.
- The overall consensus was that we couldn’t feasibly enforce such a practice comprehensively since some students may be hospitalized somewhere else without the school’s knowledge.
- Patti feels the Counseling department doesn’t have the means to assess each student and indicated that the student would need to be evaluated by an external person. This then could cause many issues, such as additional expense to the student and the accessibility of this external person may not be appropriate for the student’s class schedule.
- The UM System is creating a committee to review the Health Officer role.
- The Health Officer role was originally written for communicable diseases. They are looking at broadening it to include mental health issues.
- The Task Force agreed to look at changes that may take place in the Health Officer role before moving forward with creating a new policy.

Ask Listen Refer Calendar Update

- Worked with PIP to order laminated calendars for 2011. The calendars will have CITF information already printed on the back.
- The calendars will be sent to all faculty and staff.
