Making A Difference. Missouri S&T believes that students benefit from conversations with their parent(s) or legal guardian(s) regarding alcohol and controlled substance use. Through partnership with the University, you can contribute to your student’s success by actively reviewing and discussing the resources referenced in the online Parental Notification Module with your son or daughter.
Missouri S&T students, under the age of 21, are less likely to consume alcohol than other Missouri college students - 39% of S&T students, under the age of 21, chose not to consume alcohol in the past year.

Most S&T students refrain from making risky decisions. Of students who consume alcohol, 90% drink slowly instead of chugging and 88% choose not to drive or ride with someone who has consumed alcohol. Most S&T students choose not to binge drink and 99% do not use fake IDs.

Missouri S&T students look out for one another - 88% of S&T students say they would step in and do something if a friend was drinking too much.

Data From: 2014 Missouri College Health Behavior Survey, N=391

Dear Missouri S&T Family Member:

Missouri University of Science and Technology places a high priority on the health and safety of students. We are committed to providing an inclusive, vibrant and sustainable campus community where student learning and development flourish. Aligned with this commitment is the Parental Notification of Alcohol and Controlled Substances Violations policy, which allows for increased collaboration with parent(s) or legal guardian(s) regarding issues pertaining to student use of alcohol or controlled substances.

We believe students benefit from discussions with their parent(s) or legal guardian(s) about the effects of alcohol and/or controlled substance use. This includes topics related to risky sexual choices, sexual violence or harassment, alcohol poisoning and other high risk behaviors that can impact the educational and professional experience.

As our partner, we request that you review, discuss and complete the Parental Notification Module with your son or daughter. This module contains valuable information related to the impact alcohol can have on student success. Simply select the ‘Parental Notification Module’ button in the top, right corner of the Student Affairs website located at stuaff.mst.edu.

Finally, please encourage your student to complete the eCHECKUP TO GO module, which will be distributed to his or her University e-mail account later this month, to reinforce making informed choices and to become familiar with available resources related to alcohol.

Warmest regards,

Cheryl B. Schrader, Ph.D.
Chancellor

Missouri S&T • Office of the Vice Chancellor for Student Affairs • 107 Norwood • 320 W 12th St • Rolla, MO 65409

Rising to the challenge to create the future through partnerships which promote wellness and the lifelong success of students.
