Did You Know:

- 14,000 student visits in 2011
- Most recent satisfaction results:
  - 92% of students rated their SHS experience as excellent or good
  - 92% stated expectations were exceeded or satisfactorily met
  - 91% of comments offered were praiseworthy

SHS Updates

A vision of change for Student Health Services on the S&T campus took root in January of 2009, leading to the implementation of modifications in policies, procedures, staffing and provision of services including:

- Renovation of a new medical facility in May of 2010
- Embarked on implementation of Electronic Health Records
- Revised focus on customer service with collection of student satisfaction data
- Staffing modifications:
  - Addition of Nurse Practitioner and Physicians Assistant
  - Reduction of RN staff

Mission

To provide quality medical care for the student population on the Missouri S&T campus. Promoting a healthy student body will maximize each student’s ability to succeed personally and academically.

Our Commitment

To develop and maintain the infrastructure and staff necessary to provide high quality medical services for the S&T student population while providing support to appropriate programs throughout the Division and the University.

Programs & Services

Student Health is primarily a service-based department. Services are structured on a tiered hierarchy.

- Tier 1: Basic Services required to meet state and federal requirements
- Tier 2: Essential Services for evaluation and treatment of acute illness, injury, and mental health
- Tier 3: Preventative Services necessary for the health and safety of the campus community
- Tier 4: Wellness Services to improve the lifelong health of individual students

Services Provided

- Care for acute illness and injury
- Immunization & allergy care
- Psychiatric Services
- Sports Medicine
- Travel Medicine
- Women's & Men's Health
